

Cover image Brain inflammation (meningoencephalitis). Coloured transmission electron micrograph (TEM) of several *Naegleria fowleri* protozoan microbes (yellow) in the brain. A blood vessel is seen running from bottom right to centre left with red blood cells (red) and white blood cells (pale blue). *N. fowleri* caused the meningoencephalitis, which is the inflammation of the brain and its membranes.

Editors' choice

- 1 Highlights from this issue
P Smith and G N Fuller

Editorial

- 2 Patients with prolonged disorders of consciousness: more than a clinical challenge
D Wade

Commentary

- 4 Using Option Grids: a referee's commentary
M Manford

Reviews

- 6 Disease modification in multiple sclerosis: an update
C M Rice
- 14 The neurology of Sjögren's syndrome and the rheumatology of peripheral neuropathy and myelitis
A L Berkowitz, M A Samuels
- 23 Transient ischaemic attacks: mimics and chameleons
V Nadarajan, R J Perry, J Johnson, D J Werring
- 32 Can I treat this pregnant patient with botulinum toxin?
C S Pearce

Neurological rarities

- 33 Mesothelioma and anti-Ma paraneoplastic syndrome; heterogeneity in immunogenic tumours increases
H A Archer, A Panopoulou, N Bhatt, A J Edey, N J Giffin
- 36 Upbeat nystagmus in anti-Ma2 encephalitis
P Garcia-Reitboeck, G Thompson, P Johns, Y Al Wahab, S Omer, C Griffin

A difficult case

- 39 Just a graze? Cephalic tetanus presenting as a stroke mimic
A Doshi, C Warrell, D Dahdaleh, D Kullmann
- 42 Spontaneous limb movements and posturing secondary to acute basilar artery occlusion: a potentially devastating seizure mimic
L K Wilson, O R Benavente, A R Woolfenden, N Asdaghi

Test yourself

- 45 An elusive cause for a progressive neuropathy
S Aurangzeb, M Shin, I Whiteman, E Fryer, M Hofer, F Gleeson, J Park, A Moore, M R Turner

Neurological letter from

- 50 Neurological letter from Iran
R Rikhtegar, S Zarrintan

How to do it

- 54 Using an Option Grid in shared decision making
R P Seal, J Kynaston, G Elwyn, P E M Smith

Rules of tongue

- 57 Unilateral lingual paralysis after isolated unilateral infarction in the primary motor cortex
P M R Cruz, P S García, A G Pastor
- 59 A tonsillomedullary stroke causing supranuclear lingual paresis
T C Vale, R A e Silva, A da S Leite, A L Teixeira, C Balucani
- 62 Rules of tongue: look, listen, feel
T Hughes

Image of the moment

- 64 Cerebral hyperperfusion syndrome
M K Rafiq, D Connolly, M Randall, C Blank

Book review

- 67 The spirit catches you and you fall down
K Harding

Neurology book and film club

- 68 The Mayo Clinic experience
A Hassan, E FM Wijdsicks

Carphology

- 70 Carphology by A Fo Ben
